CONTEMPORARY

*We like the search for the new.
Among other things, because
there are no given rules,
but infinite possibilities for
charismatic ideas.*

BIRD

Bernhard Osann

“The lamp was born from the bold attempt to overcome the laws of nature. It almost seems as if this succeeded. It balances at the limits of the impossible, like a bird. While the vertical element keeps the balance, the horizontal element emits the light”.

Bernhard Osann

Version

PENDANT LED

UNTITLED

Bernhard Osann

“I was inspired by the sculptural and kinetic aesthetics of articulated arms. Radical simplification brings these aesthetics into focus. As the joints work without visible wires or rope hoists the Untitled is reduced to a few precise lines. The result is a graphically appearing, timeless desk lamp, characterized by its flexibility”.

Bernhard Osann

Versions

TABLE LED

NEWTON

Andrea Branzi

Version

FLOOR LED

“A first Newton prototype was made in 2002, as a tribute to the discoverer of the gravity field, an apple reflects the light that passes through the diffuser disk. After seventeen years the lamp is now put back into production with Nemo. It is not the first time that my projects are appreciated after many years”.

ON LINES

Jean Nouvel

On Lines transparent

“A simple and precise game. A game of coloured surfaces. On a bright line, everybody images his own skyline and his coloured lights. Blurry, contrasting, pure, rhythm, cold, warm, erotic... Everyone gets lost depending on situations and desires...”

Jean Nouvel

Versions

TABLE LED

FIX UP/ UP&DOWN

Nemo Studio

Versions

WALL LED

NEO

Bernhard Osann

“If you include the conditions of a room in the design of a floor lamp, you see completely new possibilities: the luminaire can lean against the wall, it does not need a base. At the same time the wall can be used to create pleasant, indirect light. Designing Neo I sought the perfect shape for this interaction”.

Bernhard Osann

Version

FLOOR LED

NUVOLA

Mario Bellini 1974

“My ‘cloud’ designed to illuminate the office (and, why not, the home too) might today be thought of as a prescient allusion to Steve Jobs’ vision of the cloud”.

IN THE WIND

Arihiro Miyake

“In a time in which the light source itself can even be designed according to each object, the question would be how the lighting design should meet technology and how the light should look like. My answer is a simple, yet very fresh attempt, free from ready-made ideas, and rules based on classic lighting sources. In The Wind is a way to the future”.

GENERAL INFORMATION

NEMO products are designed and manufactured in compliance with EN 60598-1 norms. Dimensions are indicated in centimetres. Luminaires are normally supplied without light sources, except when otherwise indicated. Products with anodized finishes could show different colour shades due to the industrial galvanic process. Shades have to be considered as aesthetic elements of the product. Polishing process is hand-made. Shades are therefore due to this manual process. Dimensions of products made with deformations of extrusions could be subject to changes of ± 1 cm. As blown glass is produced by traditional craft techniques, its thickness, colour and finish are subject to variations, a feature that makes each piece unique. NEMO reserves the right to make any technical or formal alterations to its products without giving prior notice, especially for LED sources. Information concerning luminous flux/power consumption are expressed in real values. Effective data are indicated in the technical sheets available on the website. WARRANTY Conditions are indicated in a tag attached to each luminaire. When a certain lamp is supplied

with the bulb, the same shall be seen as a pure service to the customer. The cost of the bulb is not included in the price of the product and therefore NEMO shall not be held responsible for any replacement in case of malfunctioning of the bulb. In case of discrepancy between the information contained in the printed materials and the website, this latter shall prevail.

I prodotti NEMO sono costruiti secondo le norme EN 60598-1. Tutte le dimensioni sono espresse in centimetri. Le lampade sono generalmente fornite senza lampadina, salvo diverse indicazioni. Le istruzioni di montaggio e di manutenzione sono incluse negli imballi. Le indicazioni dei materiali, delle finiture e dei colori riguardano solo le principali parti visibili dei prodotti. I prodotti con finiture anodizzate possono mostrare differenti sfumature di colore che sono proprie del processo galvanico di finitura e sono da considerarsi come elementi estetici del prodotto. Il processo di spazzolatura per la lucidatura è realizzato a mano. Le sfumature sono pertanto proprie del processo manuale di lucidatura. Nei prodotti realizzati attraverso lavorazioni di deformazioni di

estrusi, gli ingombri di massima possono subire variazioni in un range di ± 1 cm. I vetri soffiati, poiché sono prodotti artigianali, possono avere spessori, colori e finiture variabili che ne costituiscono l'unicità. NEMO si riserva di apportare qualsiasi modifica tecnica o formale senza preavviso, soprattutto per quanto concerne le sorgenti LED. I dati relativi ai flussi luminosi, ai consumi ed alle potenze si riferiscono a valori reali. I dati effettivi sono indicati nelle curve fotometriche e nelle schede disponibili sul sito. **GARANZIA** Le condizioni di garanzia sono precisate in un cartellino allegato ad ogni lampada. Alcune lampade vengono fornite con la sorgente che Nemo suggerisce per la miglior resa. Tale dotazione è da ritenersi esclusivamente come un servizio gratuito accessorio offerto al cliente. Il costo della sorgente non fa pertanto parte del prezzo della lampada. NEMO non sarà dunque responsabile di alcuna sostituzione o servizio post-vendita in caso di malfunzionamento. In caso di discrepanza delle informazioni tra documenti cartacei e sito web, prevalgono le informazioni del sito.
