We all collect the things we love, objects, designs, furniture and accessories that echo different facets of our personality. But collecting goes beyond the tangible. It encompasses intangibles, like new experiences. An appreciation of art, fashion and music. It's about being open to meeting new people and seeing things from a different perspective. Reflecting on the past and creating new memories now to cherish in the future. That is why we wanted to shoot our novelties and exist-

ing collection in stunning surroundings in the Belgian port city, Antwerp. A city blessed with cool street art, diverse architecture and not least a city that can't be untangled from art and design. Being the home town for creative masters like Peter Paul Rubens and Dries Van Noten, it's a city with a strong sense of its past but keeping an eye on the future. Inspired by the vibrant surroundings in Antwerp, we've captured our classics from the past and our future icons.
