# INTRO

At LIGHT-POINT, we create light – not just lamps.

Our lighting design seamlessly merges tradition and craftsmanship with innovation and new technology. The result is a collection of sharp, sleek, streamlined, and stylish lamps with a distinctive signature.

LIGHT-POINT is a Danish design company with an international approach and appeal. Since 1995, we have been challenging and exploring what exceptional lighting design can be. We adhere firmly to our core values and principles – uncompromising quality above all – and strive to remain relevant and even ahead of our time.

Our lamps are, of course, functional and meet practical lighting needs, but they also offer much more: atmosphere, well-being, and emotion. Therefore, we design not just light, but also quality of life.

This philosophy is embodied in our extensive collection of award-winning lamps. Each piece has its own temperament and attitude, yet shares the same DNA and design language. The minimalist and distinctive design is timeless, making it visually and aesthetically sustainable, while also having the edge and character to serve as design statements in any space.

Our lamps are ideal for both private homes and outdoor spaces, as well as the commercial market. Our Danish design team collaborates closely with architects and designers to consistently offer unique, creative solutions.

LIGHT-POINT's lamps are sold worldwide, and our headquarters, flagship store and showroom are located in the heart of Copenhagen.

# THE COLLECTIONS

## AURA Collection

AURA is an award-winning collection based on LIGHT-POINT's characteristic design style with its clean, calm lines. At the same time, round curves lend AURA an aesthetic softness. The collection consists of ceiling and wall lights. AURA Ceiling is available with two and three light sources that can rotate on their own axis, making them super flexible. AURA Wall is available in four lengths. W3 and W4 are particularly suitable for hanging above a bathroom mirror.

## TIMELESS, BOLD & SCULPTURAL

CUBE LED is an outdoor lamp that is both classic and innovative at the same time. Its sharp, stringent design is entirely minimalist and understated, yet the lamp makes a design statement with sculptural qualities.

CUBE is available in black and a new rust version. The rust surface adds a more rustic and industrial look without being dominant. The reddish-brown hue is perfect for adding warmth to walls and facades, blending seamlessly into natural surroundings.

## DARK Collection

Beneath the simple look of the DARK collection, thoughtful details lie waiting to be discovered. This lamp is easy to use and fits into any room in the home. The flexible head makes it easy to direct the light in the desired direction, and the upper part of the arm can be adjusted, making it the ideal light for reading and working. DARK is functional both on a desk and next to a chair or sofa, where it casts a soft and cosy glow. This also goes for the wall version, which can be used as a bedside lamp.

The lamp has an innovative on/off switch with a built-in dimming function, so you can easily and elegantly adjust the brightness by keeping your finger on the button. The IF Design Award-winning series consists of two table lamps, a floor lamp, and a wall lamp.

# DROP Collection

DROP / Rose Gold

DROP / Rose Gold

### LIKE DROPS DRIPPING FROM THE CEILING!

DROP is an elegant, slim ceiling pendant that can hang alone or in clusters – your imagination is the limit. You can create a big, spectacular installation in a space like a hall, or hang a smaller number in a row above a table.

DROP offers pleasant illumination, with small light sources that are deep enough to avoid glare. DROP is available in two lengths.

# EDGE Collection

EDGE ROUND / Brass

EDGE LINEAR / Brass

## CUTTING-EDGE ELEGANCE WITH A SMART TUNE FUNCTION

The name says it all: EDGE. A cutting-edge collection of pendants with edge and character. EDGE is available in a long, slim, linear version and in a circular model. Both are sculptural and sophisticated. The built-in Smart Tune function lets you control and manage the light using either an app on your smartphone or the touchless sensor. This makes it easy to switch your light on or off, adjust the brightness, and change the colour temperature. EDGE Round is ideal for hanging in multiples above a larger dining table.

## PRECISION AND FLEXIBILITY

A round spotlight in a square base. FOCUS is a ceiling spotlight that can rotate 350 degrees, ensuring maximum flexibility and focused light.

It's perfect for highlighting artwork, but it also works really well as ceiling lighting if you want to emphasise something special in your interior design. FOCUS can also be directed vertically into the floor to create exciting effects in a room.

ORBIT W1 / Rose Gold

## ORBIT Collection

An elegant and exclusive collection of indoor and outdoor lights, allowing you to create visual continuity and harmony across your indoor and outdoor spaces. ORBIT is the perfect all-around lamp: simple, reliable, and robust, yet light, sculptural, and sophisticated. The lamp casts its light further, wider and softer. The optical glass lens provides glare-free light that won't bother your eyes while still providing the light you need.

For interior use, you can choose from a wall lamp and a floor lamp. ORBIT WALL is an up-down lamp, suitable for corridors or above the kitchen counter. It comes in several sizes. ORBIT FLOOR can be controlled using a touchless sensor, making it easy to switch on and off and adjust the brightness. The floor lamp can also be adjusted in height, and the two spotlights can be controlled individually, so you can customise your lighting experience.

ORBIT WALL MINI / Brass

MIRAGE / Brass

ORBIT WALL MINI / Brass

ORBIT STAND / Black

ORBIT WALL W2 / Black

## VISUAL CONTINUITY FOR BOTH INDOOR AND OUTDOOR

ORBIT WALL and ORBIT GARDEN are ideal for outdoor spaces, where they create both exciting and calm light, whether on facades or standing on the ground. With its up-down light, ORBIT WALL provides beautiful shadows on walls along the entrance or on the terrace. Available in black and white.

ORBIT GARDEN is a floor lamp that can accompany you from your driveway to your door, as well as in the garden, where it works well in flower beds. This model is only available in black.

RØRHAT STAND / Black

## RØRHAT Collection

RØRHAT is a true Danish design icon! It has a semicircular shape – a timeless classic. Designed by Jesper Juhl Pedersen in 1989, this lamp is still produced in Denmark from the finest materials. The originality, simple lines, high quality, and affordable price point of the RØRHAT make it a popular lamp. Beautiful on a carport or garage, or on a wall, like for instance next to the front door. It is also available as a bollard, with light in one or two directions.

The RØRHAT range includes a selection of mounting hardware and nameplates, so you can personalise your RØRHAT lamp. The lamp can even withstand harsh wind and weather, but it is also suitable for indoor use. The lamp is available in a variety of finishes: classic black or white, polished chrome, galvanised, rust, and stainless steel. It is also available in raw or polished copper and polished brass for indoor use only. A super functional lamp: 100% Danish design and 100% value for money.

# SLIM Collection

SLIM S1500 / Titanium

SLIM S1800 / Rose Gold

## SUBTLE SOPHISTICATION

Like a line in the air. A study in style. SLIM is an elegant and efficient light source that's ideal to place above dining or meeting tables. Hanging like a trapeze on two thin fabric cables and equipped with a discreet bracket, it effectively casts a soft, warm, and diffuse light over its surroundings.

The SLIM pendant doesn't obstruct your view or get in the way, even from above. It hangs like a design statement and blends into any environment. Available in three lengths.

SWITCH TUNE <sup>TM</sup>

SOHO / Rose Gold / Black

## SOHO Collection

Like luminous art on the wall! SOHO is a wall-mounted system of circles/discs that you can freely place on the wall in all kinds of creative formations. You can mix and match colours and sizes to create a personal and artistic expression in your indoor and outdoor spaces. SOHO is ideal as a mood-setter and eye-catcher in the home, as well as in offices, hotels, restaurants, lobbies, showrooms, and shops. SOHO can also be used outdoors. Available in five sizes, all with varying depths to create overlapping patterns on a wall.

Winner of the Red Dot Design Award.

## SPIRIT Collection

SPIRIT is an ultra-modern lamp for anyone who's looking for something special. It has a raw, urban, and industrial look. SPIRIT has a distinctive, three-dimensional look with one or more tube-shaped light sources that are attached to the pole with a magnet, so they can be moved freely as needed. This makes SPIRIT a super functional and flexible lamp. Available as a pendant, floor, and table lamp. The latter two models are equipped with an innovative on/off switch with a built-in dimmer function, allowing you to easily and elegantly adjust the brightness by simply holding your finger on the button.

Collection

STRIPE S1500 / Titanium

STRIPE S2000 / Brass

## CONTEMPORARY MINIMALISM

An emblem of modern style! Play with the effects of light with STRIPE: A collection of two pendant lights and two wall lights with a strict, architectural, and sophisticated expression. It's a very contemporary lighting object that lets you create exciting scenes and imaginative landscapes of light in your home. STRIPE is the epitome of minimalist design. Everything superfluous has been cut out, making it graphic and sculptural above a kitchen table, dining table, or desk, on a wall, or on the ceiling. STRIPE is a gallery piece – it's a work of art, so simple, and yet capable of transforming your entire interior.

# VANTAGE

## Collection

VANTAGE / Rose Gold

### MAXIMUM LIGHT VERSATILITY

VANTAGE is a state-of-the-art award-winning LED spot lamp that works optically, spreading light further, wider and softer. Replacing traditional reflectors with an optic glass provides glare free light, eliminating annoyance to the eyes. The collection is made up of four sizes and five colours; in a structured powder coated black and white and in a brushed rose gold, titanium and our new colour brass. Each lamp is made from CNC machined high quality aluminium which is the best choice of material for absorbing heat created by the LED.

## ZERO Collection

No-nonsense design. ZERO is a family of elegant, cylindrical pendant and wall lights. These lamps are streamlined and minimalistic, spreading a soft, comfortable, and glare-free light. The pendant can hang alone or in a group of several. The wall lights illuminate both upwards and downwards and can be used in all rooms, including bathrooms and outdoor spaces (in black and white).

# General terms of sale and delivery

The following terms and conditions cover all deliveries and services from LIGHT-POINT A/S, unless other terms have been agreed upon in writing.

## **Tender**

A tender is binding for three weeks from the date of the tender.

## **Dispatch/return of goods**

Delivery will be EXW LIGHT-POINT A/S' warehouse (Incoterms 2000) unless other terms have been explicitly agreed upon. When buying any of LIGHT-POINT A/S' goods for resale buyer shall defray all freight charges himself.

Dispatch will take place at buyers' own account and risk. When delivery has been agreed to be free of carriage the cost of dispatch is included in the price and the dispatch will be at the risk of LIGHT-POINT A/S. Buyer is only entitled to annul the order due to delay provided delivery is delayed for more than 30 days.

Returned goods will only be received when prior agreement of return has been reached and then only in the original wrapping and in an undamaged state. A copy of the delivery note or the invoice must accompany the returned goods.

Erroneous orders for standard goods will be deducted 20% for handling and control. Special goods, procured goods and unwrapped light sources will not be accepted for return.

## **Prices**

All prices are current prices exclusive VAT, government taxes and light sources unless otherwise stated. All prices are stated without prejudice to printing errors, price changes and discontinued goods.

## **Payment**

Unless otherwise stated in LIGHT-POINT A/S' tender or other written agreement our terms of payment are net cash at delivery/collection. At delay in payment a fee of DKK 100.00 and interest of 2% per commencing month will be added.

## **Notification of defects**

Buyer is obligated to examine the goods immediately after receiving them. Notification of defects must be given to LIGHT-POINT A/S within 8 days of delivery. If buyer does not notify LIGHT-POINT A/S of defects within this time-limit he will not be able to cite any defects at a later date. Expenses incurred by buyer in con-

nection with cited defects are not covered by LIGHT-POINT A/S unless LIGHT-POINT A/S has received the notification of defects and has given a written acceptance to cover the costs.

### **Warranty**

Products which have a manufacturing fault or a flaw in the material will be repaired without cost or exchanged in accordance with the rules in the Danish Sale of Goods Act and to the same extent that the warranty from sub suppliers covers. Light sources are not covered by warranty.

Scan the QR-code and read more about our 7 years warranty.

### **Exemption of liability**

Non-fulfilment including delay or delivery of defective goods will only justify buyer compensation provided buyer documents that the non-fulfilment is caused by gross negligence on the part of LIGHT-POINT A/S. However LIGHT-POINT A/S is in no case responsible

for operating loss, loss of time, loss of profits or other like indirect losses including daily fines inflicted on buyer.

### **Product liability**

The company is only responsible for product liability in accordance to the rules in the Danish Product Liability Act. Beyond this the company is not responsible for product liability.

### **Disputes**

Disagreements in connection with the cooperation of the parties with reference to this agreement must be solved according to Danish law, in as much as the parties agree that the venue shall be the Maritime and Commercial High Court in Copenhagen or alternatively the City Court of Copenhagen.

Copenhagen K, 1<sup>st</sup> of September 2024.

LIGHT-POINT is a Danish design company with an international approach and appeal. Since 1995, we have challenged and explored what good lighting design can be. The minimalist design is timeless, and thus aesthetically sustainable, the lamps have edge, and function as design statements. We create light – not just lamps.
