CUBE / Design: Ronni Gol

Outdoor lighting, all year round

The outdoor season is on its way and it is time to think about how you can maximize the hours spent on your terrace or balcony or in the garden. Furthermore, it is important to know which lighting solution works best for your home depending on location, season and mood.

Campaign prices are valid until August 31, 2023 or as long as stock is available!

New Design

MIRAGE WALL /
FROM EURO 222,-^{EX VAT} / SEK 2.420,-^{EX VAT}
Design: Nital Patel

Available in Rust / White / Black
Available in two sizes.

It's not often that so much attention is given to an ordinary wall lamp, and that was the starting point of the whole design ideology behind the MIRAGE WALL.

MIRAGE WALL is a wall lamp designed in a form intermediate between a square and a circle, combining clean lines with technical precision. Viewed from any angle, the spot takes a new visual expression.

LIGHT-POINT / OUTDOOR

MIRAGE WALL / Design: Nital Patel

MIRAGE WALL / Design: Nital Patel

For indoor use, it is also available in the colors Rose Gold, Titanium, and Brass.

FRONT DOOR

At the front door, you should choose lighting that makes it easy to find your way, locate your keys or make your guests feel at home. Create a warm welcome with wall lamps on each side of the door, or spots above it.

TERRACES

In the coming warmer months, we will be spending a lot more time outside. And for many, the terrace or balcony is a space for peace and relaxation. This also requires lighting, which must be both decorative but also functional when you dine outside and want to cosy up on your terrace or balcony even when it gets dark.

GARDEN PATH

Lighting along the garden path, by the garden gate and on footpaths is important for finding your way around the property. It is a good idea to install your light low so you can easily see steps, flowerbeds or tripping hazards. Use multiple dimmed light sources instead of one strong one - that way you can also use the lamps as a sort of guide.

Design: Ronni Gol

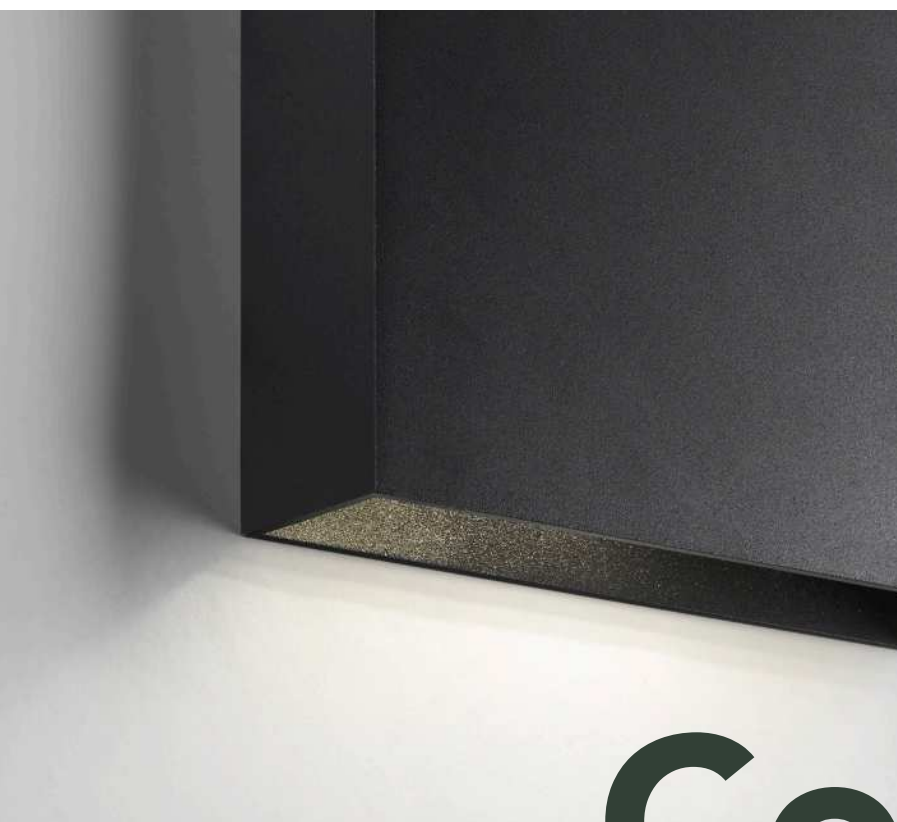

Available in Black / White
Available in two sizes.

COMPACT is a beautifully designed LED wall lamp by Ronni Gol, featuring the well-known stringent lines and made of luxurious aluminium.

The lamp is available in an up/down version, meaning that light flows both upwards and downwards. The energy consumption is low, so there's no need for a darkened house!

The lamp provides a soft diffuse, decorative light on the wall. With an IP54 standard, the lamp is approved for outdoor use but can naturally also be used indoors.

Furthermore, with its depth of less than 5 cm, the lamp sits close to the wall and saves space.

Compact

Rørhat

RØRHAT is the epitome of iconic Danish design. With a history spanning over 30 years, the RØRHAT collection is produced in Denmark with a focus on craftsmanship and quality.

Designer Jesper J. Pedersen's philosophy behind RØRHAT was to create a democratic design that possessed both functionality and aesthetics. Combined with Jesper J. Pedersen's craftsmanship skills and artistic abilities, it became the foundation on which he designed the collection in 1989.

Over the years, the collection has grown. It includes many models and accessories in a wide range of materials and finishes such as brass, copper, and stainless steel. Explore the collection on the following pages...

Available in White / Black

Available in five sizes

Create art

— **Light with infinite possibilities**

SOHO is a wall-mounted LED lighting system based on round discs or “buttons” that can be creatively arranged on the wall in any imaginable pattern. The collection is perfect for setting the mood and designing a personal and artistic expression in a space.

SOHO is ideal for your home but also for use in stores, studios, showrooms, offices, or hotel lobbies.

Creativity knows no bounds.

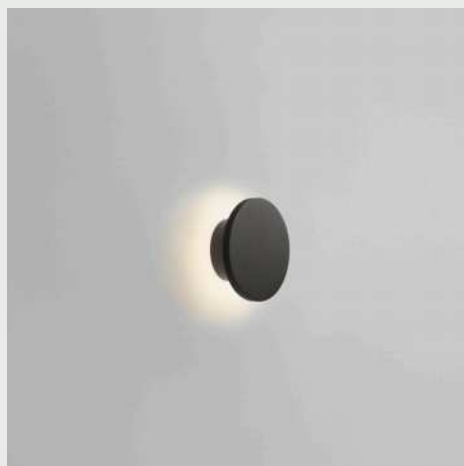

SOHO consists of 5 different sizes, each protruding slightly further from the wall, allowing for overlapping patterns. Depending on your individual design preferences, SOHO allows for an unlimited number of lamps in a setup.

Each lamp is made of high-quality machined aluminium, which has proven to be the best material for absorbing heat from the LEDs.
