Farooo

MARCEL WANDERS, 2012

The name Farooo is inspired by the Italian word for a lighthouse and its intense beam of light, which acts as guidance for ships around dangerous coastlines. Characterized by a sinuous, ornamental body & a contemporary shade, this lamp comes in three imposing dimensions & a choice of several stylish colours. Let yourself be led to safety with Farooo's light beam, and float happily towards its soft, placid glow.

Filigree Floor Lamp

RICK TEGELAAR, 2016

“What distinguishes a lamp from a light source?” is the question that initially triggered Rick Tegelaar to imagine and create the Filigree Floorlamp. Thanks to an elegant and dainty network of fine wires, that reminds us of delicate filigree jewelry, the translucent screen protecting the powerful LED light at the heart of the lamp is held under tension, distributing a soft light glow evenly across the room. When pointed towards a wall or ceiling, with the ornamental filigree flower structure facing us, the lamp projects a playful network of shadows to mesmerize and entertain.

FRONT, 2006

True to the dimensions of a real horse, the Horse Lamp by Front brings a touch of nature in fairytale style and genuine madness. His talent to make a bold statement is so well-developed, that trying to feed him carrots wouldn't do him justice. In fact; a spotlight is what he deserves.

Coppélia Suspended

ARIHIRO MIYAKE, 2015

Coppélia comes to life in a whirl of flowing motion and sparkling light. With a graceful sense of wonder, a beautiful mechanical doll appears to magically come to life in the famous ballet Coppélia. In the performance the ballerina traces, with sinuous movements, a delicate after-image in the air, which inspires the fluid motion in the design of Miyake's Coppélia Suspended Lamp. The graceful dance, staged by the three-dimensionally crossed wire structure, leads the spectator to dozens of glowing LED lights, which define the contour and the magical glow of Miyake's interpretation of a classic chandelier.

Flock of Light

STUDIO TOER, 2020

Flock of Light by Studio Toer tells the story of nature with lights inspired by the movement of fireflies. Fine bronze wires create elegant, curved lines while the brass cups and LED diffusers act as glowing beetles dancing in the air. The playful light transforms from a light, airy design by day to a swarm of warm lights at night – bringing elegance and warmth to any room.

Gravity Chandelier

PAUL COCKSEGE, 2021

The Gravity Chandelier by Paul Cocksedge re-imagines the chandeliers of the past. Inspired by changing rigidity to elasticity. The Gravity Chandelier is the definition of a modern chandelier. At first glance, it doesn't reveal its flexibility and cleverness; It takes a second look to unravel its mystery. With its flexible arms, you define the chandelier's diameter and choose where the light travels, but the suspended elements create natural curves shaped by gravity.

The Gravity Chandelier comes in two sizes, after the number of arms, Gravity Chandelier 5 and Gravity Chandelier 7.

Meshmatics

RICK TEGELAAR, 2017

Whoever sets eyes on the Meshmatics Chandelier will never guess what hides behind its sophisticated appearance. Rick Tegelaar elevated the nature of humble wire netting by developing a machine and a set of tools to model it with accuracy. The full potential of this thin and flexible material is stretched and captured within three layers of beauty.

NR2

BERTJAN POT, 2015

NR2 by Bertjan Pot is an elegant and bright bubble of white or black thread. The lattice pattern creates a fine web that shines and glimmers in the light. The fine web is oval-shaped and bears the signature style of Bertjan Pot; designs created from an experiment with different materials. The integrated LED lamp in NR2 subtly diffuses a soft and magical glow around the room. NR2 is available in two different colours and sizes.

NomNom Light

ODIN VISSER, 2022

Can. Not. Resist! The NomNom Light by Odin Visser is a contemporary lighting design that puts a smile on your face and a tingle in your belly. This modestly sized suspension light is the perfect example of the art of omission, while remaining distinctive. Two straight lines and a sphere that create the illusion of two chopsticks holding something delicious. As a stand-alone, there's no way around NomNom's playful elegance, but when multiplied in a bundle or in a row, it's simply irresistible. The NomNom Light makes us hungry for more! And with six colours to choose from, there's always a new flavour to try out.

Raimond II

RAIMOND PUTS, 2009

The Raimond lights: perfect spheres of mathematical ingredients punctuated by tiny LED lights. Designer Raimond Puts was not only intrigued by the shape of the geodesic dome, but also with the mystery of prime numbers. It's no coincidence that the dimension of all Raimond lights resemble a prime number. The result of mathematical perfection, that brings the starry night sky into your home.

Compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

Charleston Sofa

MARCEL WANDERS, 2016

The beauty of iconic pieces needs to be turned around, played with, and challenged in innovative ways to reach new levels of inventiveness and seduction! Charleston by Marcel Wanders is a classic sofa, elegant and comfortable, dressed in stylish brown leather with embroidered accents, that has been shifted into a vertical posture. Its grace becomes slender and elongated, tall and majestic, while it plays with our mindset and expectations. The traditional armrest becomes a very comfortable seat for one or two people. Certainly an eye catcher, Charleston is also a cozy companion that literally turns the corner to open a new world of possibilities!

Liberty Lounger

ATELIER VAN LIESHOUT, 2018

Liberty Table

ATELIER VAN LIESHOUT, 2018

The Liberty table, designed by Atelier Van Lieshout, is a typical example of artwork turned into a design object, just like the earlier released Liberty Lounger. With the Liberty Table, Atelier Van Lieshout continues to address the New Tribal Labyrinth and "Arts and Crafts" movement with traditional craftsmanship and using simple forms.
