Prägende Stilelemente des SATTLER Produktpportfolios sind minimalistische, großdimensionierte Kreiselemente und deren Varianten. Als kreativer Kopf lässt sich Ulrich Sattler von vielfältigen Formen und Technologien inspirieren. Sei es die Affinität zu italienischen Automobil-Designikonen und deren markanter Linienführung, oder aber die intensive Wahrnehmung von Elementen seiner täglichen Umgebung aus Natur und Technik. So ist ein Kernstück der AVVENI, der magnetische Kugelverbinde, dem menschlichen Schultergelenk nachempfunden. Hinzu kommt die einer Zellstruktur gleichenden Modularität, vom Einzeller bis zur komplexen Struktur.

Minimalistic circular shapes in large dimensions, and variations thereof, are distinctive stylistic elements for the SATTLER product portfolio. Ulrich Sattler possesses a highly creative mind and derives his inspiration from different shapes and technologies. These may be inspired by Italian automobile design icons and their elegant use of lines as well as his deep appreciation for elements in his everyday environment – both natural and technological. One of AVVENI's main features is its magnetic ball joint modeled after the human shoulder. Moreover, AVVENI has a cell-like modular structure, ranging from a single cell up to a complex structure.

# ULRICH SATTLER

## MICHAEL SCHMIDT

Mit Ulrich Sattler und Michael Schmidt haben sich zwei kreative Köpfe gefunden, um die Vision AVVENI in ein zukunftsweisendes Lichtkonzept umzusetzen. Ulrich Sattler ist immer auf der Suche nach neuen Wegen, um diese in klare Formen umzusetzen. Der zweite Kreative, Michael Schmidt, Inhaber des Stuttgarter Designstudios code2design, arbeitet als Industrie- und Produktdesigner international für namhafte Marken. Er versteht sich als Designautor, der Geschichten in Produkte umsetzt.  
Ulrich Sattler and Michael Schmidt are two creative minds, which combined, are turning the vision of AVVENI into a trendsetting lighting concept. Ulrich Sattler is constantly striving to find new ways of creating elegant and classic shapes. The second creative mind involved is Michael Schmidt, who is the owner of the code2design studio based in Stuttgart (Germany). He works internationally as a product and industrial designer for several renowned brands and regards himself as a design author - translating stories into products.

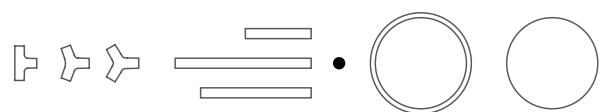

Focus Open 2016  
Gold

GERMAN  
DESIGN  
AWARD  
WINNER  
2017

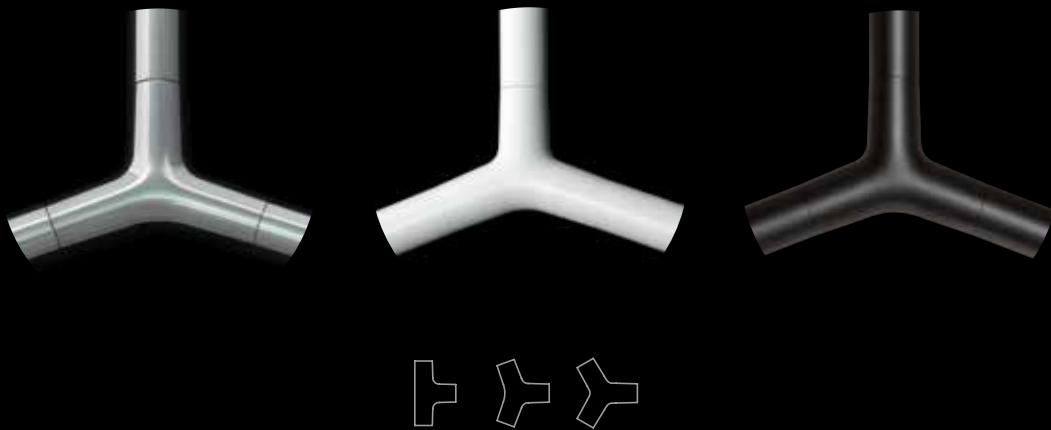

Für herausragendes Design und Funktionalität wurden Leuchten der AVVENI-Serie bereits mehrfach ausgezeichnet. For outstanding design and functionality, luminaires of the AVVENI series have already won several awards.

Ob Steh-, Pendel- oder Deckenleuchte, die Struktur der AVVENI Leuchtenserie wird geprägt durch Modularität und klare Formensprache. Feine Rundungen und Übergänge, aufeinander abgestimmte Radien und Winkelemente ergeben in jeder Kombination ein stimmiges Gesamtbild.

The AVVENI luminaire series is characterised by its unique modular structure and clear expression of form which can be applied to floor lights, pendant or ceiling luminaires. Delicate curvatures and transitions as well as synchronised radii and angle elements result in a harmonious form in any combination.

LOOK AND FEEL

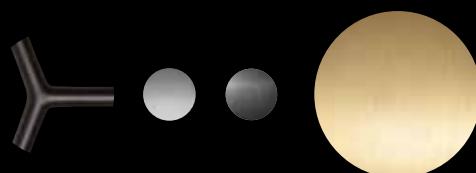

# COLOUR

Die spannende Kombination von reduzierter Formensprache, edler Haptik der Oberflächen und variabler Farbgebung ergeben eine hohe Flexibilität bei der Anpassung an die jeweilige Raumarchitektur. Neben der gewählten Farbe der Leuchte, bestehend aus Struktur und Ring des Leuchtenkopfes, poliert, schwarz oder weiß lackiert, kann die Deckelfarbe des Leuchtenkopfes individuell gewählt werden: Mit feinem Schliff, in Gold, Schwarz und Silber ergeben sich so elegante Kombinationsmöglichkeiten.

The intriguingly reduced expression of form, a classy surface feel and variable colour schemes enable a high degree of flexibility for the adaption to any particular room architecture. The AVVENI consists of the main modular structure including the light head ring, which comes polished or anodised in black or white. The light head top cover is available in anodised gold, black or silver. All these colour options can be individually selected and allow for exquisite variations.

Strukturfarbe: weiß RAL 9003  
Deckelfarbe: schwarz, gold, silber (eloxiert)  
Finish structure: white RAL 9003  
Finish top cover: black, gold, silver (anodised)

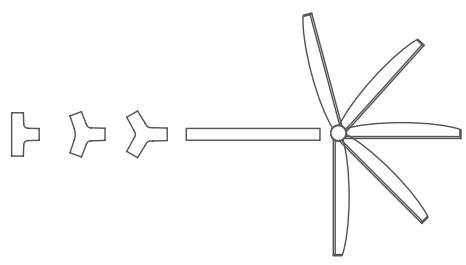

Strukturfarbe: schwarz matt  
Deckelfarbe: silber, schwarz, gold (eloxiert)  
Finish structure: black matt  
Finish top cover: silver, black, gold (anodised)

Strukturfarbe: Aluminium poliert  
Deckelfarbe: gold, silber, schwarz (eloxiert)  
Finish structure: aluminium polished  
Finish top cover: gold, silver, black (anodised)

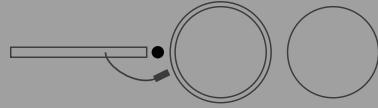

# FLEXIBILITY

# CONNECTION

Zentrales Verbindungselement mit einem Höchstmaß an Bewegungsfreiheit ist der magnetische Kugelgelenkverbinder. Zwischen Leuchtenstruktur und dem auswechselbaren Kopf der Leuchte ist er dem menschlichen Schultergelenk nachempfunden und sorgt in jeder Position für stabilen Halt.

A magnetic joint modeled on the human shoulder enables the highest flexibility of movement possible and acts as the central connecting element between the luminaire structure and its exchangeable light head, thus providing stability in any position.

Beweglichkeit ohne Einschränkung, dreh- und schwenkbar. Der kugelgelagerte Leuchtenkopf der AVVENI-Serie macht alle Bewegungen mit. Dabei garantiert das magnetische Verbindungsselement festen Halt. Einfach am Leuchtenring auszustecken, lässt sich der Leuchtenkopf durch Abnehmen vom Magneten jederzeit austauschen. Durch die Kombination von unterschiedlichen Leuchtenköpfen lassen sich so kreative Lichtlösungen realisieren.

$180^\circ + 360^\circ$

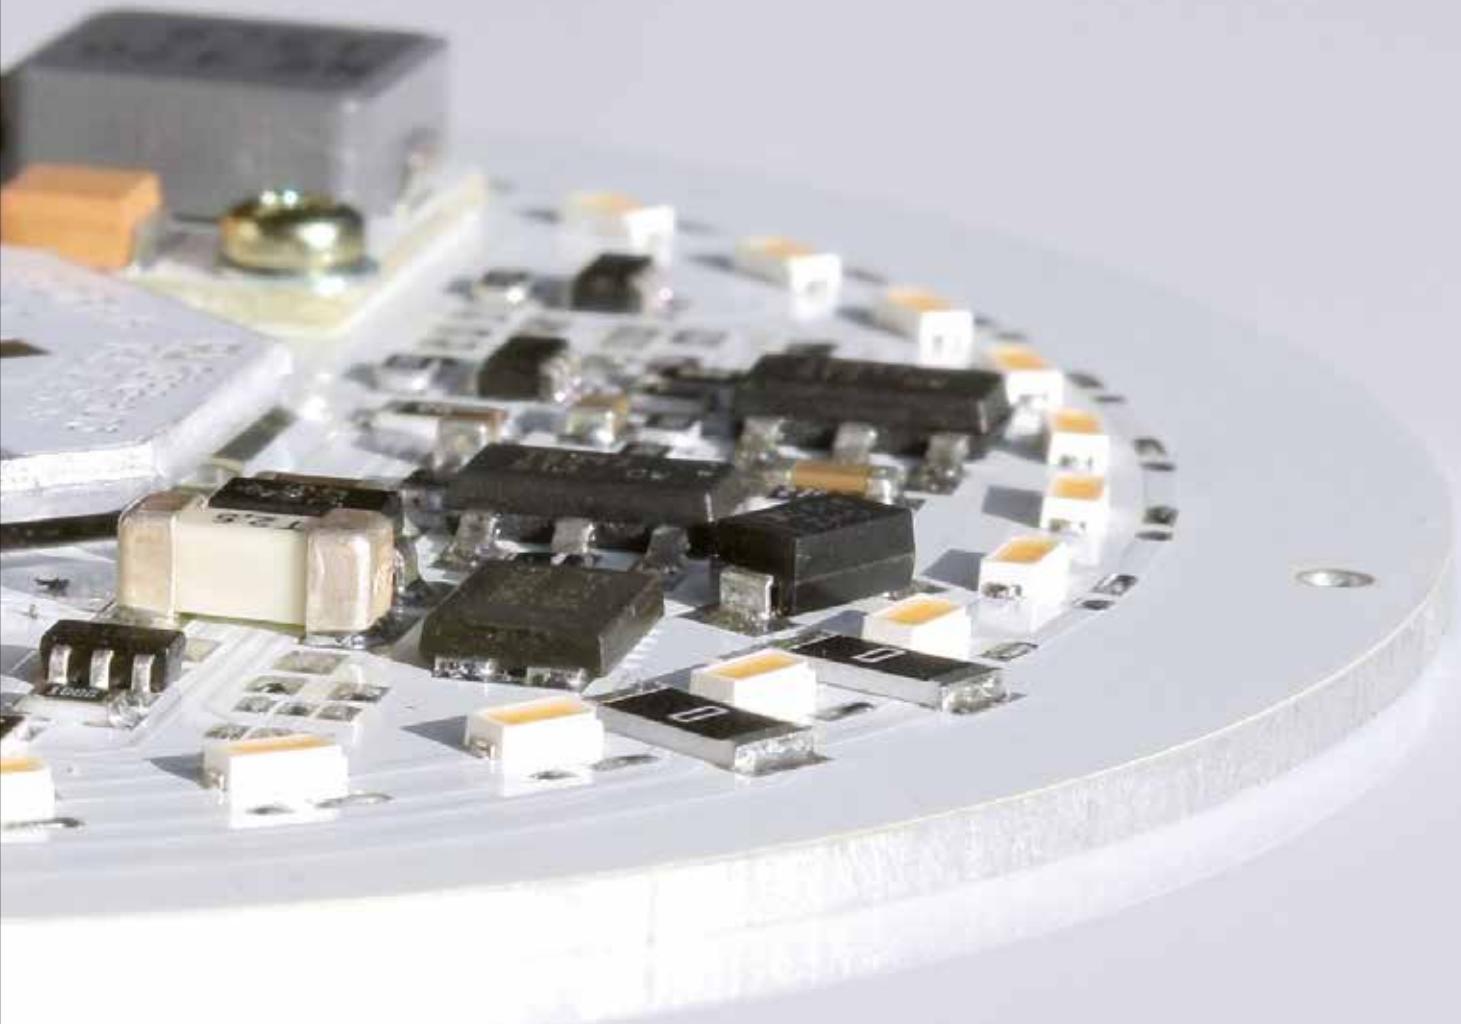

Movement without limits, whether horizontal, vertical or rotatory – the light head of the AVVENI series does it all. A magnetic connecting element provides guaranteed stability. The light head can be easily popped in and out at any time by simply taking off the magnet and disconnecting the cable connection. The combined use of different light heads enables the creation of a multitude of lighting solutions.

Unsichtbar im Kopf der AVVENI verborgen, garantiert die Technologie der Leuchte ein Höchstmaß an Flexibilität, Effizienz und Nachhaltigkeit. Modernste Vollspektrum LED-Technologie mit einem Farbwiedergabewert von > 95 ist besonders energiesparend und bildet Farbabstufungen sowie Kontraste hervorragend ab. Darüber hinaus ermöglicht die integrierte Dimmung das separate Ansteuern jedes einzelnen Leuchtenkopfes. Beim Spot-Leuchtenkopf der AVVENI kann Flächen- und Spotlight unabhängig voneinander geschaltet und individuell gedimmt werden.

## TECHNOLOGY

Elegantly hidden in the AVVENI light head is the technology of the fixtures. It guarantees the highest degree of flexibility, efficiency and sustainability. State-of-the-art full spectrum LED technology with a colour rendering index of > 95 is exceptionally energy-saving. Colour gradation and contrasts are magnificently displayed. Moreover, the integrated dimmer makes it possible to control each individual light head separately. The AVVENI spot light head even enables independent switching between the spot and background light as well as individual dimming.

Energieeffiziente Vollspektrum-LED-Technologie.  
Energy-efficient full spectrum LED technology.

LED-Technologie mit einem Farbwiedergabewert von >95 für höchsten Sehkomfort bei Farbe und Kontrast.

LED technology with a colour rendering index of >95 for the highest degree of optical convenience regarding colour and contrast.

Mit dem SNAP-SYSTEM lässt sich der 9° Abstrahlwinkel des Spots auch nachträglich auf 17°, 25°, 36° und 60° erweitern.

The convenient SNAP SYSTEM makes it possible to subsequently change the beam angle of 9° to 17°, 25°, 36° or 60°.

Dimmung wahlweise 0-10V, 1-10V, DALI oder Bluetooth Steuerung.

Optional dimming 0-10V, 1-10V, DALI or Bluetooth control.

Folgende Standardlichtfarben stehen zur Auswahl: extra warmweiß 2700K, warmweiß 3000K und neutralweiß 4000K.

The following light colours are available: extra warm-white 2700K, warm-white 3000K and neutral-white 4000K.

# HEAD

Die Leuchten des AVVENI-Systems können mit zwei unterschiedlichen Leuchtenköpfen bestückt werden. FLOOD- und SPOT-Leuchtenköpfe können auch nachträglich jederzeit gewechselt werden. Zudem ist auch der Einsatz von unterschiedlichen Leuchtentypen in einer Struktur möglich.

The luminaires in the AVVENI series can be fitted with two different light heads. FLOOD and SPOT light heads may be exchanged at any time. Moreover, different light heads can be fitted on any structure.

# FLOOD

Leuchtenkopf mit FLOOD Abstrahlung und zirkularer Prismenscheibe für eine weiche, homogene Lichtabstrahlung. Wahlweise in den Lichtfarben 2700K, 3000K und 4000K und 17W LED Leistung.

Light head with FLOOD light distribution and a circular prism diffusor for a soft and homogenous light beam. Available in the light temperatures 2700K, 3000K and 4000K and 17W LED power.

2700 KELVIN  
3000 KELVIN  
4000 KELVIN

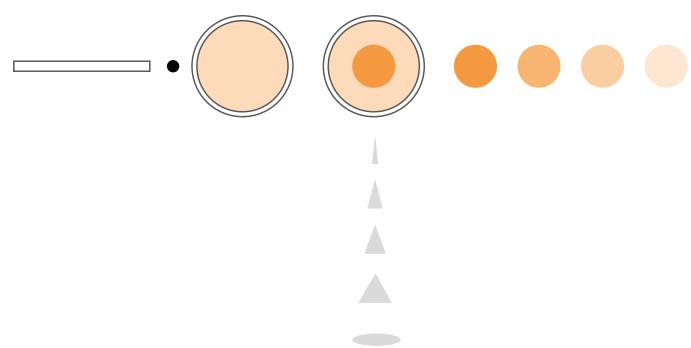

## SPOT 9-60°

Leuchtenkopf mit SPOT Abstrahlung für effektvolles Akzentlicht und umlaufendes Flächenlicht. Der Abstrahlwinkel von 9° kann nachträglich mittels des magnetischen SNAP-SYSTEMS jederzeit angepasst werden. Spot 15,5W, Flächenlicht 3,5W.

Light head with SPOT light beam for accentuated light and surrounding background flood light distribution. The beam angle of 9° can be easily adjusted through the SNAP SYSTEM. Spot light 15,5W, flood light 3,5W.

9° 17° 25° 36° 60°

# INDIVIDUAL

AVVENI Leuchten mit 9° Spot bieten durch das integrierte SNAP-SYSTEM verschiedene Möglichkeiten, sich nachträglich dem jeweiligen Bedarf anzupassen. So können Abstrahlwinkel und -form, sowie die Farbtemperatur mittels magnetischer Filterscheiben geändert und bis zu drei Filter miteinander kombiniert werden.

AVVENI luminaires with 9° spot offer various ways of adaption to any customer's requirements by use of the integrated SNAP SYSTEM. Beam angle and shape as well as the colour temperature may be changed using magnetic snap-on lenses. Up to three lenses can be combined.

# COMPOSITION

AVVENI verleiht Ihrer Kreativität ungeahnte Möglichkeiten, lassen Sie Ihren Ideen freien Lauf. Komponieren Sie eigene, stilvolle Lichtszenarien voller Spannung und Dynamik, mit ausgesuchten technischen Zutaten modernster Lichttechnik.

AVVENI allows for unimaginable creative potential – let your ideas flow freely. Compose your own stylistic light concepts in an exciting and dynamic way, including selected components and state-of-the-art light technology.

# CONTROL

Bei AVVENI Leuchten mit mehreren Leuchtenköpfen und Anwendungen mit unterschiedlichem Lichtbedarf ist die Steuerung durch 0-10V, 1-10V, DALI oder die CASAMBI Smartphoneapplikation möglich. Mittels Smartphone kann jeder Leuchtenkopf einzeln angesteuert werden. Zudem kann beim SPOT-Kopf der Spot und das Flächenlicht unabhängig voneinander gedimmt und geschaltet werden.

AVVENI luminaires, with several light heads and varying needs of application may be controlled with 0-10V, 1-10V, DALI or the CASAMBI smartphone application. Using CASAMBI each individual light head can be controlled separately. Moreover, the SPOT head enables the independent control of the spot and the surrounding background light as well as individual dimming.

# AVVENI PROJECT

Die Leuchtenserien AVVENI eröffnet bei der Planung und Realisierung komplexer Lichtlösungen z.B. im Büro- und Shopbereich neue Horizonte. Durch die strenge Geometrie und die Modularität der Leuchten lassen sich gleiche oder unterschiedliche Elemente in Gruppen zu einem harmonischen Gesamtbild zusammenfassen. In Kombination mit den lichttechnischen Möglichkeiten und der Beweglichkeit der Leuchtenköpfe werden so ausgefallenste Lichtideen und Beleuchtungskonzepte Wirklichkeit.

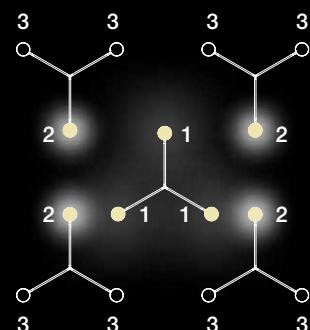

The AVVENI series opens new horizons for the planning and implementation of complex lighting solutions, e.g. in an office or shop area. The luminaires' strict geometry and modular structure permit the harmonious combination of either the same or different grouped elements. Through the bringing together of different AVVENI models along with the movability of the light heads and the possibility to address each light head separately, eccentric lighting ideas can be turned into reality.

## AVVENI ACCESSORIES

AVVENI Leuchten mit 9° Spot bieten durch das integrierte SNAP-SYSTEM verschiedene Möglichkeiten, sich nachträglich dem jeweiligen Bedarf anzupassen. So können Abstrahlwinkel und -form, sowie die Farbtemperatur mittels magnetischer Filterscheiben geändert und bis zu drei Filter miteinander kombiniert werden.

AVVENI luminaires with 9° spot offer various ways of adaption to any customer's requirements by use of the integrated SNAP SYSTEM. Beam angle and shape as well as the colour temperature may be changed using magnetic snap-on lenses. Up to three lenses can be combined.

### BEAM ANGLE LENSES

**Spot-light lenses\*** magnetic snap-on lenses to change the beam angle

	17°		Spot	1174. 00. 00. 00. 00
	25°		Spot	1163. 00. 00. 00. 00
	36°		Spot	1164. 00. 00. 00. 00
	60°		Spot	1165. 00. 00. 00. 00
	13°		Spot asymmetrical 0-20°, consisting of 2 lenses	1177. 00. 00. 00. 00

**Elliptical lens\*** magnetic snap-on lenses for asymmetrical light beam

	10-36°		Ellipse*	1166. 00. 00. 00. 00
	10-60°		Ellipse*	1175. 00. 00. 00. 00

**Square lens\*** magnetic snap-on lenses for square light beam

	36°-36°		Square*	1176. 00. 00. 00. 00
*approx. 10% reduction of the lumen output				

### LIGHT COLOUR LENSES

**Colour temperatur lenses\*** magnetic snap-on lenses that shift colour temperature

Starting light colour KELVIN (K)	2700	3000	4000	
	CTO 1/4	2450	2700	3500
	CTO 1/2	2200	2400	3000
	CTO 3/4	2000	2200	2700

\*reduction of the lumen output : CTO 1/4 = 10%, CTO 1/2 = 25%, CTO 3/4 = 40%

### ANTI GLARE PROTECTION

**Louver snap** magnetic snap-on adaptor to eliminate high angle glare

	1167. 00. 00. 00. 00
--	----------------------

## AVVENI LIGHT HEAD

Die Leuchten des AVVENI-Systems können mit zwei unterschiedlichen Leuchtenköpfen bestückt werden. FLOOD- und SPOT-Leuchtenköpfe können jederzeit gewechselt werden. Zudem ist auch der Einsatz von unterschiedlichen Leuchtentypen an einer Struktur möglich.

The AVVENI series allows for two different light heads: FLOOD and SPOT. The FLOOD and SPOT heads can be exchanged at any time. Moreover, the two distinct heads may be combined within any AVVENI structure.

## TECHNISCHE INFORMATIONEN | TECHNICAL INFORMATION

### Positive Ökobilanz:

Unsere Leuchten sind mit LED-Technologie der neuesten Generation ausgestattet, sind energiesparend, langlebig, sparen CO<sub>2</sub> und schonen damit Umwelt und Klima. Die Verwendung ausgesuchter Materialien sichert, dass nahezu alle Leuchtenbauteile umweltfreundlich recycelt werden können.

### Environmentally Conscious:

Our lights are equipped with the latest in LED technology, which is energy saving and long-lasting, therefore preserving the environment. The use of well selected materials, guarantees an environmentally friendly recycling process of almost every component.

Erfüllt die Anforderungen aller für dieses Produkt gültigen EG-Richtlinien.  
Meets the requirements of all applicable to this product EC directives.

Für diese Produkte können Lichtverteilungskurven angefordert werden.  
For this product light distribution curves may be requested.

LED-technology 36V: 2700K, 3000K, 4000K

Technische Änderungen, Irrtümer und Druckfehler vorbehalten

- 1) Tatsächlicher Lumenwert: Verluste durch Diffusoren und Reflektoren sind berücksichtigt.  
Die Lumen-Werte beziehen sich auf eine Umgebungstemperatur von max. 30°C / 95°F.
- 2) Leuchtengewichte ohne separate Technikeinheit oder Baldachin.

Technical data subject to change. Errors and omissions excepted 1) Net lumen output: Losses due to diffusers and reflectors are considered. Lumen values refer to an ambient temperature of max. 35° C / 95° F.  
2) Weight of lights without remote technical unit or canopy.
