ZOOM XL Kristallglas Set (20 pcs.)

ZO1015      331,93€      395€

# Information

Ein modularer Artikel ist eine Leuchte, die aus funktional getrennten Einzelkomponenten besteht und erst durch deren Kombination eine vollständige Leuchte bildet. Typische Bestandteile sind beispielsweise eine Lichteinheit (LED-Modul inkl. Vorschaltgerät) und ein optisches Element wie ein Glasschirm oder eine Abdeckung. Dieses modulare System ermöglicht eine flexible Konfiguration entsprechend technischer Anforderungen an Lichtverteilung oder Designvorgaben.

A modular article is a luminaire that consists of functionally separate individual components and only forms a complete luminaire when they are combined. Typical components are, for example, a lighting unit (LED module incl. ballast) and an optical element such as a glass shade or cover. This modular system enables flexible configuration according to technical requirements for light distribution or design specifications.

Mit **serien Individual** haben Kunden die Möglichkeit, ihre Leuchten über das Standardsortiment hinaus in Farbe und Material individuell zu gestalten. Sonderausführungen mit anderen Lichtleistungen, Farbwiedergabeindizes, Oberflächen, Kabel- und Rohrlängen auf Anfrage. Für maßgeschneiderte Lösungen steht Ihnen unser Kundenservice gerne zur Verfügung.

With **serien Individual**, customers have the option of customising the colour and material of their lights beyond the standard range. Special versions products with other light outputs, colour rendering indices, surfaces, cable and tube lengths on request. Our customer service team will be happy to help you with customised solutions.

Unsere Produkte sind so konstruiert, dass beim Austausch von Lichtquellen nur eine qualifizierte Fachkraft sicherstellen kann, dass diese nicht verunreinigt und/oder beschädigt werden. Die Lebensdauer der Lichtquellen wird durch die Montageart mit Wärmeleitpads unmittelbar beeinflusst. Daher wird der nicht fachmännische Austausch von Lichtquellen und separaten Betriebsgeräten als nicht sinnvoll angesehen.

Our products are designed in such a way that when light sources are replaced, only a qualified specialist can ensure that they are not contaminated and/or damaged. The service life of the light sources is directly affected by the mounting method with heat conducting pads. Therefore, the non-professional replacement of light sources and separate control gear is not considered advisable.

Eine Excel-Datei mit Artikelnummern und aktuellen Preisen stellen wir unseren Handelspartnern gerne zur Verfügung unter:

[www.serien.com/downloads/](http://www.serien.com/downloads/)

We are happy to make the Excel file with article numbers and current prices available to our trade partners:

Unter [www.serien.com/downloads](http://www.serien.com/downloads) finden Sie hilfreiche Informationen und die jeweils aktuellen technischen Daten: Datenblätter, Kataloge, Preislisten, Lichttechnische Daten (EULUMDAT), 3D CAD-Daten, Konformitätserklärungen, Retourenformular, FAQs, Montageanleitungen, Bohrschablonen und weitere Serviceanleitungen

At [www.serien.com/downloads](http://www.serien.com/downloads) you will find helpful information and the latest technical data:

Data sheets, catalogues, price lists, lighting data (EULUMDAT), 3D CAD data, declarations of conformity, returns form, FAQs, assembly instructions, drilling templates and other service instructions.

# Luminaire features

|                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | <p><b>Die Schutzart IP (International Protection Code) gibt an, wie gut ein elektrisches Gerät gegen das Eindringen von Fremdkörpern (z. B. Staub) und Wasser geschützt ist. Die Schutzart wird in der Norm DIN EN 60529 (VDE 0470-1) definiert.</b></p> <p>The IP (International Protection Code) rating indicates how well an electrical device is protected against the ingress of foreign bodies (e.g. dust) and water. The degree of protection is defined in the standard DIN EN 60529 (VDE 0470-1).</p>                                                                                                                                                                                                                                                              |
|    | <p><b>Die Abdeckung der LED erfolgt über eine hochwertige optische Echtglas-Sammellinse. Sie sorgt für eine präzise Lichtbündelung, minimiert Streuverluste und gewährleistet eine gleichmäßige Lichtverteilung bei gleichzeitig hoher Lichtausbeute. Durch die Verwendung von Echtglas bietet die Linse exzellente thermische und optische Eigenschaften sowie eine dauerhaft hohe Transparenz.</b></p> <p>The LED is covered by a high quality optical glass converging lens. It ensures precise light bundling, minimises scattering losses and guarantees uniform light distribution with high luminous efficacy. Thanks to the use of real glass, the lens offers excellent thermal and optical properties as well as permanently high transparency.</p>               |
|    | <p><b>Chemisch gehärtetes Glas zeichnet sich durch eine hohe mechanische Festigkeit und Oberflächenhärte aus. Ein Ionenaustauschverfahren bewirkt eine deutlich erhöhte Beständigkeit gegen mechanische Beanspruchung, Temperaturschocks und Abrasion. Die veredelte Oberfläche sorgt zudem für eine optisch homogene Struktur mit hoher Lichttransmission und einem klaren, brillanten Erscheinungsbild.</b></p> <p>Chemically tempered glass is characterised by high mechanical strength and surface hardness. An ion exchange process significantly increases resistance to mechanical stress, temperature shocks and abrasion. The refined surface also ensures an optically homogeneous structure with high light transmission and a clear, brilliant appearance.</p> |
|    | <p><b>Durchmesser des benötigten Deckenausschnitts für die Montage von Einbauleuchten in Hohldecken.</b></p> <p>Diameter of the cut-out required for the installation of recessed luminaires in hollow ceilings.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|    | <p><b>Das Pendelrohr der Leuchte ist in der Länge anpassbar und kann bei Bedarf durch den Kunden mit einer handelsüblichen Metallsäge individuell gekürzt werden. So lässt sich die Abpendelhöhe flexibel auf die jeweilige Einbausituation abstimmen.</b></p> <p>The pendant tube of the luminaire is adjustable in length and can be individually shortened by the customer using a commercially available metal saw if required. This allows the pendant height to be flexibly adapted to the respective installation situation.</p>                                                                                                                                                                                                                                     |
|    | <p><b>Optional sind Abhängungen in Überlänge erhältlich. Für individuelle Anforderungen wenden Sie sich bitte an unseren Kundenservice.</b></p> <p>Extra-long suspensions are available as an option. For customised requirements, please contact our customer service.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|   | <p><b>Die Leuchten sind für eine Durchverdrahtung vorgesehen. Dadurch können mehrere Leuchten in Reihe geschaltet werden, ohne zusätzlichen Installationsaufwand. Dies gewährleistet eine schnelle, normgerechte und übersichtliche Elektroinstallation.</b></p> <p>The lights are designed for through-wiring. This means that several lights can be connected in series without additional installation work. This ensures a quick, standardised and clear electrical installation.</p>                                                                                                                                                                                                                                                                                   |
|  | <p><b>Optional können die Leuchten mit intelligenten Sensoren ausgestattet werden, die Umgebungshelligkeit und/oder Anwesenheit von Personen erfassen. Dadurch wird die Beleuchtung bedarfsgerecht gesteuert, Energie eingespart und gleichzeitig der Komfort für die Nutzer erhöht.</b></p> <p>As an option, the luminaires can be equipped with intelligent sensors that detect the ambient brightness and/or the presence of people. This allows the lighting to be controlled as required, saving energy and increasing user comfort at the same time.</p>                                                                                                                                                                                                              |
|  | <p><b>Die Leuchten können optional mit einem integrierten Akku ausgestattet werden, um den Betrieb in Notbeleuchtungsanlagen sicherzustellen. Im Falle eines Netzausfalls schaltet die Leuchte automatisch in den Notbetrieb um und gewährleistet eine zuverlässige Grundbeleuchtung für die Dauer der vorgeschriebenen Überbrückungszeit.</b></p> <p>The luminaires can optionally be equipped with an integrated rechargeable battery to ensure operation in emergency lighting systems. In the event of a power failure, the luminaire automatically switches to emergency mode and ensures reliable basic lighting for the duration of the prescribed bridging time.</p>                                                                                                |
|  | <p><b>Die DALI-Betriebsgeräte sind optional für den Einsatz in Notbeleuchtungsumgebungen geeignet und können problemlos in entsprechende Systeme eingebunden werden.</b></p> <p>The DALI control gear is optionally suitable for use in emergency lighting environments and can be easily integrated into corresponding systems.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|  | <p><b>Alle Einbauleuchten sind standardmäßig mit einem passenden Betriebsgerät ausgestattet. Es entstehen keine zusätzlichen Kosten für externe Vorschaltgeräte, und die Leuchten können sofort nach der Installation in Betrieb genommen werden.</b></p> <p>All recessed luminaires are equipped with a suitable control gear as standard. There are no additional costs for external ballasts and the luminaires can be put into operation immediately after installation.</p>                                                                                                                                                                                                                                                                                            |

| UGR<br><19                                                                                            | <p><b>Der UGR-Wert (Unified Glare Rating) gibt die Blendwirkung von Leuchten an. Je niedriger der Wert, desto geringer die psychologische Blendung. Für Bildschirmarbeitsplätze wird ein <math>UGR \leq 19</math> empfohlen. Unsere Leuchten sind so konzipiert, dass sie je nach Ausführung definierte UGR-Grenzwerte einhalten und hohen Sehkomfort bieten.</b></p> <p>The UGR value (Unified Glare Rating) indicates the glare effect of luminaires. The lower the value, the lower the psychological glare. A <math>UGR \leq 19</math> is recommended for VDU workstations. Our luminaires are designed to comply with defined UGR limit values and offer a high level of visual comfort, depending on the version.</p>                                                                         |
| <br>dimmable         | <p><b>Diese Leuchten sind dimmbar und erlauben eine flexible Anpassung der Lichtintensität. Je nach Modell werden unterschiedliche Dimmtechnologien unterstützt: Phasenabschnitt (TRIAC), DALI oder CASAMBI (Bluetooth). Für detaillierte Kompatibilitäts- und Steuerungs-Informationen wenden Sie sich bitte an unseren Kundenservice.</b></p> <p>These lights are dimmable and allow flexible adjustment of the light intensity. Depending on the model, different dimming technologies are supported: Trailing edge (TRIAC), DALI or CASAMBI (Bluetooth). For detailed compatibility and control information, please contact our customer service.</p>                                                                                                                                           |
| <br>Zhaga standard   | <p><b>Der Zhaga-Standard definiert herstellerübergreifende Schnittstellen für LED-Module, Treiber, Sensoren und Konnektoren. Er gewährleistet Interoperabilität, unterstützt modulare, zukunftssichere Leuchtendesigns und erleichtert Wartung sowie Austausch zur Steigerung der Systemlebensdauer und Nachhaltigkeit.</b></p> <p>The Zhaga standard defines manufacturer-independent interfaces for LED modules, drivers, sensors and connectors. It ensures interoperability, supports modular, future-proof luminaire designs and facilitates maintenance and replacement to increase system service life and sustainability.</p>                                                                                                                                                               |
| <br>tunable white    | <p><b>Leuchten mit der Tunable White Funktionalität besitzen eine variable Farbtemperatursteuerung von warm- bis kaltweißem Licht.</b></p> <p>Luminaires with the tunable-white functionality have variable colour temperature control from warm to cool white light.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <br>dim2warm         | <p><b>Mit Dim2Warm wird eine Funktionalität der Leuchte bezeichnet, mit der das als angenehm empfundene Dimmverhalten von klassischen Glühfadenlampen imitiert wird. Beim Dimmen wird das Licht nicht nur dunkler, sondern ändert seine Lichtfarbe auch in den warmweißen Bereich.</b></p> <p>Dim2Warm refers to a luminaire functionality that imitates the pleasant dimming behavior of classic incandescent lamps. When dimmed, the light not only becomes darker, but also changes its colour to warm white tone.</p>                                                                                                                                                                                                                                                                           |
| <br>CRI >97          | <p><b>Der Farbwiedergabeindex wird zur Beurteilung der Qualität der Farbwiedergabe einer Lichtquelle herangezogen.</b></p> <p>The colour rendering index is used to assess the quality of the colour rendering of a light source.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <br>SDCM 2         | <p><b>Der SDCM-Wert (Standard Deviation of Color Matching) beschreibt die Farbkonsistenz von LEDs. Je niedriger der Wert, desto gleichmäßiger erscheint das Licht mehrerer Leuchten derselben Serie. Ein <math>SDCM \leq 3</math> steht für eine sehr hohe Farbtreue ohne sichtbare Farbunterschiede – ideal für anspruchsvolle Anwendungen mit hohem ästhetischem Anspruch.</b></p> <p>The SDCM value (Standard Deviation of Color Matching) describes the colour consistency of LEDs. The lower the value, the more uniform the light of several luminaires in the same series appears. An <math>SDCM \leq 3</math> stands for very high colour fidelity without visible colour differences - ideal for demanding applications with high aesthetic requirements.</p>                              |
| TRIAC                                                                                                 | <p><b>Diese Leuchten sind mit einem handelsüblichen Phasenabschnittsdimmer regelbar – sie können sowohl ein- und ausgeschaltet als auch in der Helligkeit stufenlos geregelt werden. Dafür ist eine 3-adrige Standard-Netzzuleitung ausreichend.</b></p> <p>Luminaires with this feature can be controlled with a standard phase cut dimmer – it can be switched on and off as well as continuously be controlled in brightness. A 3-wire standard mains cable is sufficient.</p>                                                                                                                                                                                                                                                                                                                   |
| DALI                                                                                                  | <p><b>5-adrige Netzzuleitung bei Regelung über DALI oder 0/1–10 V erforderlich.</b></p> <p>5-core mains cable required for control via DALI or 0/1–10 V.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| CASAMBI                                                                                               | <p><b>Die Leuchten können optional mit einem CASAMBI-Modul ausgestattet werden und lassen sich dadurch komfortabel per Smartphone, Tablet oder Wandschalter über Bluetooth steuern. CASAMBI ermöglicht eine smarte und kabellose Lichtsteuerung ohne zusätzliche Steuerleitungen oder aufwendige Installation. Weiterführende Informationen unter <a href="http://www.casambi.com">www.casambi.com</a>.</b></p> <p>The luminaires can be optionally equipped with a CASAMBI module and can therefore be conveniently controlled via smartphone, tablet or wall switch using Bluetooth. CASAMBI enables smart and wireless lighting control without additional control cables or complex installation. Further information can be found at <a href="http://www.casambi.com">www.casambi.com</a>.</p> |
| <br>through wiring | <p><b>Die Leuchten sind für eine Durchverdrahtung vorgesehen. Dadurch können mehrere Leuchten in Reihe geschaltet werden, ohne zusätzlichen Installationsaufwand. Dies gewährleistet eine schnelle, normgerechte und übersichtliche Elektroinstallation.</b></p> <p>The lights are designed for through-wiring. This means that several lights can be connected in series without additional installation work. This ensures a quick, standardised and clear electrical installation.</p>                                                                                                                                                                                                                                                                                                           |
