

ZERO[®]

HIGH—LIGHTS 2020

UNIQUE ATTRACTION

Zero Interiör was founded in 1978 with the vision of making unique light fixtures for a design-interested audience. These products, in combination with a deep understanding of how best to illuminate public indoor and outdoor environments, is at the heart of our identity. From the start, our creation of unique environments has been praised in both Sweden and abroad, thanks to our guiding principles: quality, environmental care and innovation. Our local roots and manufacturing have built long-term relationships with customers and suppliers that are vital to us. More than 80 percent of manufacturing takes place within roughly 200 km from Nybro in Småland and all assembly occurs in our workshop in Nybro.
