

ZERO[®]

HIGH-LIGHTS 2022

UNIQUE ATTRACTION

Zero Interiör was founded in 1978 with the vision of making unique light fixtures for a design-interested audience. These products, in combination with a deep understanding of how best to illuminate public indoor and outdoor environments, is at the heart of our identity. From the start, our creation of unique environments has been praised in both Sweden and abroad, thanks to our guiding principles: quality, environmental care And innovation. Our local roots and manufacturing have built long-term relationships with customers and suppliers that are vital to us. More than 80% of manufacturing takes place within roughly 200 km of Nybro in Småland and all assembly occurs in our workshop in Nybro.

LUMO

Die-cast aluminum, painted black RAL 9005, green RAL 6011, grey RAL 7030, browngrey RAL 7006 or orange RAL 3022. Other colours on request. Diffuser in matt acrylic. Diameter 250 mm. With built in LED module with Dali option or with GU10 socket.
